SATURDAY EVENING NOVEMBER 22.

MAKING A SCALP.—Last Saturday little Malinda Oisech, aged ten years, was sweeping up grain in a West Detroit elevator, when her loose hair was caught by a revolving shaft. Her scalp was wrenched off from the eyebrows to the neck, including the right ear. Dr. Morley, of Grace Hospital, determined to engraft a flap of skin from the right side of her sister Emma to provide a new scalp, and Wednesday the operation was performed. An area of skin of oval shape, eight inches long by five and one-half inches wide, was removed from Emma, leaving the upper and attached near the breast. The children were laid together on a table and the flap was firmly fastened with sutures to the injured child's head. Then the children were bandaged together. The edges of the skin on Emma's side were taken up with several great sutures to prevent the spreading of the tissue. The children must remain in that position for four or five days, when it is expected that the edges of the flap will have adhered to the lining of the bone, which was not removed from the right side. If the operation is successful the remaining part of the head will be treated.

The eleventh annual report of the State Department of Agriculture in South Carolina shows an estimated increase of 65,000 more bales of cotton than last year.

Lead Poison Cured.
I am a painter by trade. Three years ago I had a bad case of Lead Poison, caused by using paint. I was cured in a short time by S. S. S. The medicine drove the poison out through the pores of the skin. My system was so saturated with poison that my underclothes were colored by the paint being worked out by the medicine through the pores of my skin. I was cured entirely by S. S. S., and have had no return since.

A CARD—We are aware that a number of Alexandrians go to Washington for their CHINA and GLASSWARE, and we believe that with the proper effort and attention all or nearly all of these people can be induced to buy goods in these lines at home. We intend therefore to do all in our power to further this end, and for this purpose we have selected our stock for fall with more than usual care and foresight. Our retail department, besides, we put under the special care of our salesman, and it will be his duty to see that the stock is always full, and to attend to the wants of our Alexandria customers. We only keep "firsts" (goods selected by the manufacturer as perfect), and we buy only from the manufacturer. For this reason, we can sell you not only the best goods, but at the very lowest prices.
